Muhammad Faisal Sohail

Research Interests

- **Computer Vision:** camera localization, structure from motion, and 3D reconstruction
- **Machine Learning:** deep learning, neural networks, and visual recognition
- **Applied AI:** image analysis, healthcare AI, and IoT-based intelligent systems

Experience

11/2025 – Present **Lecturer/Focal Person**
Department of Computer Science
University College of Management and Sciences, Khanewal, Pakistan

- Teaching undergraduate courses in computer vision, image processing, data science, programming, web engineering, information security, ICT, and computer networks.
- Serving as focal person for undergraduate students and coordinating academic support, student guidance, and university-level activities.
- Also serving as Supervisor for Final Year Students of Computer Science and Information Technology departments, mentoring them in project methodology, project documentation, and final year project execution.

Education

2023 – 2025 **Master of Science in Computer Science** **CGPA: 3.16/4**
Government College University Faisalabad, Pakistan

- **Research Thesis:** Neural Network-Based Camera Localization
- MS Thesis Presentation Link
- **Major Courses:** Data Mining, Text Mining, Machine Learning, Artificial Intelligence, Operating Systems

2017 – 2021 **Bachelor of Science in Computer Science** **CGPA: 3.19/4**
Government College University Faisalabad, Pakistan

- **Project Thesis:** Secure Online Auction System
- **Major Courses:** Computer Graphics, Data Mining, Artificial Intelligence, Data Structures and Object-Oriented Programming, Database Systems, Computer Networks

Programming Skills

Python and ML	NumPy, pandas, Matplotlib, SciPy, scikit-learn
CV and DL	OpenCV, Open3D, COLMAP, PyTorch, MLPs, CNNs
Development	PHP, HTML, CSS, Java, C++

Publications

2026 Javaid, M. T., Hameed, I., **Sohail, M. F.**, Ali, G., and Yaqoob, N. *Enhancing Personal Wellness Through AI: Object IQ's Image-Based Dietary Monitoring and Personalized Recommendations*. Spectrum of Engineering Sciences, vol. 4, no. 2, pp. 289–307, 2026. [Paper]

2026 Salahuddin, **Sohail, M. F.**, Khan, H. R., and Meeran, M. T. *Convolutional Neural Network Architectures for Robust Image Feature Representation in Retrieval Systems*. Kashf Journal of Multidisciplinary Research, vol. 3, no. 2, pp. 109–113, 2026. [Paper]

2026 Shahid, M., Meeran, M. T., Hussain, N., Ali, G., and **Sohail, M. F.**. *Design of an Intelligent IoT-Driven Real-Time Continuous Remote Patient Care Framework Using Machine Learning*. Spectrum of Engineering Sciences, vol. 4, no. 4, pp. 311–322, 2026. [Paper]

2025 Khan, M. A., Arshad, H. A., **Sohail, M. F.**, and Salahuddin. *AI-Integrated IoT System Using Machine Learning Techniques for Continuous Health Tracking and Predictive Patient Monitoring*. Kashf Journal of Multidisciplinary Research, vol. 2, no. 12, pp. 24–38, 2025. [Paper]

Summer Schools and Training

July 11–14, 2024 **Oxford Machine Learning Summer School (OXML)**
Topics: Representation Learning, Generative AI
Activities: Breakout sessions, topic discussions, and personal mentorship

October 4–8, 2021 **Machine Learning with Python**
Organized by: Intelligent Criminology Research Lab, University of Engineering and Technology (UET), and National Center of Artificial Intelligence, Pakistan
Topics: Image processing, custom CNN training, and perceptron learning algorithm

September 2020 **Professional Development Program**
Organized by: Lahore University of Management Sciences and Ufone, Pakistan
Topics: Career path management, PowerPoint essentials, and work ethics
